TOURIST GUIDE

A nature and relaxation destination

Normandie

Forges-les-Eaux *Green Resort*

Tourism based on nature is king here. The charter which awards this label, and to which our district was a signatory, was formulated in 1964. Each green resort guarantees to develop nature-oriented tourism. It therefore ensures the development and maintenance of this heritage and facilitates access for residents and tourists thanks to observation sites, educational visits or spaces arranged for games and leisure activities.

The label also singles out destinations where life is good, where you can relax in the local markets or in characteristic restaurants.

Benefits must include a variety of accommodation, a swimming pool, a cultural infrastructure and a program of entertainment and festivities.

The Bois de l'Epinay, with its nature trails is a considerable asset. Likewise the Avenue Verte/the Greenway is considered one of the best routes in the west.

Forges-les-Eaux

The Most Beautiful Detours in France

The Most Beautiful Detours in France is a controlled label from the company Michelin. Every year, 100 towns (2,000 to 20,000 inhabitants), not villages, are audited according to rigorous selection criteria that are intended to provide assurance that the «territory» of which they are the epicentre has the capacity and the will to be among the places of welcome worthy of being recommended to both French and foreign tourists.

Among these requirements to ensure a lifestyle are:

- be located away from major highways
- develop an enhancement of its heritage policy
- organise original quality events
- possess cultural and sporting facilities
- have a permanent hotel capacity
- put in place directional and information signs

- benefit from a tourist environment justifying a stay of at least three days

The Association Tourism and Handicap has among its objectives:
- to raise awareness among tourism professionals about the needs of people with handicaps in using leisure facilities,
- to implement and manage devices for promoting policies favouring this welcome.

This works to give access to recreation and tourism for people with disabilities.

The national label Accueil Vélo/ Cyclists Welcome brings together services tailored to the needs of cyclists.

It includes hosts, Tourist Offices, places to visit and those who rent and repair.

The network Cyclists Welcome in Normandy, consists of over 230 tourism providers (hosts, tourist offices, places to visit, businesses which rent and repair) which offer hospitality and quality services to tourists on bicycles. They can also visit the website www.francevelotourisme.com.
Nationally, there are more than 1,990 providers under the label Cyclists Welcome! The label is hosted by the National Network of departmental destinations (Rn2d) and France Cycling Tourism.

In order to receive tourists better and to improve the quality of the tourism on offer in France, the State has created a Quality Tourism label.

This label selects and brings together under one symbol the quality initiatives undertaken for customer satisfaction in hotels, tourist homes, holiday villages, campsites, restaurants, cafés and brasseries, seasonal rental agencies, tourist offices, places where people visit and outdoor activities.

It is a sign of recognition for institutions offering quality services that customers can choose with confidence.

What do French tourism professionals promise?
A quality of welcome and service, professionalism and the development of local resources are among the core values of the label.

The professionals who display the Qualité Tourisme symbol are committed to providing:
- A personalised welcome;
- Clear and accurate information;
- A competent and attentive staff;
- Comfortable and spotlessly clean premises ;
- Local tourist information tailored to demand.

Recipe :

(Serves 6) :

- Pastry
- 6 apples
- 20 g sugar
- 30 g butter

Preparation of the recipe :

Peel and dice the 4 Golden apples. Mix the apples, put them in a pan with some water (1 glass or 2) and cook them.

Mix well. When the apples are softened, add 20 g sugar. Add a little water if necessary.

Check if the apple mixture is enough cooked, it must be soft.
Continue cooking the apple mixture, at the same time quarter the remaining two apples with a knife. Then prepare apple slices in neat rings (they will be used to overlap the apple mixture).

Pre-heat the oven to 210°C (themostat 7). The apple mixture must cool down.

Then take a mold. Unroll the pastry in a circle and prick it on the base with a fork.

Pour the apple mixture on the pastry and arrange slices in neat rings on the top, overlapping them. Add butter on top of them.
Put in the oven and cook for 30 minutes maximum. You can sprinkle over sugar the tart will be beautifully caramelized.
